Designed by Corporate Edge 2002. Accent Smooth is recyclable and manufactured under strict ISO 14001 guidelines. The stock contains 100% elemental chlorine free (ECF) pulp, which is carefully selected from forests with strict forestry and ecology management. The manufacturing process is totally purified using clean energies and any by-product is cleansed in a state of the art cleansing and purifying facility before being released back into nature. The statement of Business Principals booklet has been produced using K&E vegetable inks and in accordance to ISO 9002 quality assurance procedure.
