

community activities

We recognise our responsibilities as a member of the communities in which we operate and commit resources to support community and social investment through national or locally targeted programmes in partnership with others. We will also encourage and support your efforts to be involved in and provide leadership in the educational and social fabric of the communities in which you live.

government relations

We support dialogue between business and government authorities at local, national and international levels to promote and implement relevant legislation, regulations and agreements, protecting the rights of all stakeholders while safeguarding a healthy and competitive business environment.

the environment

As a major multinational company we recognise our environmental responsibilities and our contribution to sustainable development. Our environment policy and its management processes deal not only with the environmental issues connected to our manufacturing processes and facilities, but also with protecting the ecosystems from which we derive our raw materials, management of our supply chain, and distributing, selling and consumption of our products.
